Communications in Computational Physics

 Global Science Press

Communications in Computational Physics (CiCP) publishes original research and survey papers of high scientific value in computational modeling of physical problems. Results in multi-physics and multi-scale innovative computational methods and modeling in all physical sciences will be featured.

CiCP is a refereed international, interdisciplinary journal edited by a group of world-wide leading scientists in diverse fields to guarantee its highest standard.

CiCP's most recent SCI impact factor (2009) is 2.077. It is ranked #8 among the 47 mathematical physics journals.

CiCP's 2008 SCI impact factor was 2.33 and was ranked #8 among the 46 mathematical physics journals.

CiCP's subscription fee for 2011 is the same as that for 2010.

Editor-in-Chief:

Xian-Tu He

Institute of Applied Physics and
Computational Mathematics, Beijing

Managing Editor:

Longjun Shen

Institute of Applied Physics and
Computational Mathematics, Beijing

Tao Tang

Hong Kong Baptist University

Associate Editors:

Joan Adler
Kazuo Aoki
Gang Bao
